About Me – Chandru | Full Stack Web Developer with 5+ Years of Experience in Django, PHP, and Frontend Development

Hello! I'm Chandru, a full-stack web developer with 5+ years of experience building efficient, scalable, and user-friendly web applications. I specialize in backend frameworks like Django and PHP, while also maintaining a strong grasp on frontend development using HTML, CSS, and JavaScript.

Core Expertise

- Django for rapid backend development

- PHP for CMS and custom server-side apps

- Django REST Framework for APIs

- HTML5, CSS3, JavaScript for frontend development

- Bootstrap and Tailwind CSS for responsive design

- MySQL, PostgreSQL, SQLite for database management

- Git, GitHub, and GitLab for version control

- RESTful API development and integration

Tools & Technologies

- Languages: Python, PHP, JavaScript, SQL

- Frameworks: Django, Laravel, Bootstrap, Tailwind CSS

- Databases: MySQL, PostgreSQL, SQLite

- CMS: WordPress, custom PHP CMS

- Deployment: Apache, Nginx, cPanel, DigitalOcean

- Dev Tools: VS Code, Postman, Git

Major Projects

1. School and College ERP Systems

2. Custom CRM solutions

3. E-commerce platforms in Django and PHP

4. Inventory and billing systems

5. Multi-role web portals with secure logins

Responsibilities

- Designing database schemas and writing backend logic

- Creating mobile-first, responsive frontend UIs

- Implementing user authentication and authorization

- Debugging and performance tuning

- Deploying apps on cloud and shared hosting environments

- Managing project versions using Git

Achievements

- Delivered 30+ successful web applications

- Optimized query performance by up to 60%

- Built a reusable template system for PHP and Django apps

- Migrated legacy apps into modern web frameworks

- Frequently recognized for meeting tight deadlines

Learning & Growth

- Exploring JavaScript frameworks like React and Vue.js - Learning Docker for containerized deployment - Enhancing REST API security and performance - Understanding asynchronous programming with Django - Continuously improving UI/UX skills

Soft Skills

- Strong communication and collaboration
- Quick problem-solving ability
- Efficient time and task management
- Proactive learner and innovator

Future Goals

- Become a technical architect or full-stack team lead
- Contribute to open-source Django and PHP projects
- Build SaaS platforms from scratch
- Mentor junior developers and expand community involvement

Let's connect and build something amazing together!
